BUILT ON EXPERIENCE. DEFINED BY QUALITY.

40 Years of Development and Construction Experience in the GTA
50+ Communities Completed | 8,000+ Homes

Since 1986, Times Group has developed, designed, and constructed over 50 residential communities across the Greater Toronto Area. Over four decades, we have built a reputation for thoughtful design, quality construction, and attention to detail. As a vertically integrated development, construction, and property management company, we remain closely involved throughout every stage of our communities, from initial design through construction and interior finishing.

As a privately held, multi-generational real estate company, our commitment to quality continues to guide how we build today. At Skylands, that commitment can be seen and experienced through carefully considered layouts, quality craftsmanship, and premium features and finishes throughout.

[We look forward to welcoming you home to Skylands](#)

Based in Toronto, Icke Brochu Architects have successfully executed design projects at various scales from single-family residential homes to complex mixed-use developments throughout the Greater Toronto Area. Founded and led by its two principal architects Paul Icke and Andre Brochu, the firm has over 75 years of combined architectural experience and has worked with established firms within the greater Toronto area and York Region. The firm's team represents a collaboration of experienced architectural professionals with a strong residential portfolio of work, focusing on both mixed-use and multi-family residential developments.

STUDIO TLA is a Toronto-based Master Planning, Urban Design and Landscape Architecture firm. Established in 1980, the firm's team of 35-plus design professionals is focused on multi-scale landscape infrastructures and the interface between architecture and open space, creating meaningful environments for mixed-use and residential projects, parks, streetscapes and civic spaces. Working closely with allied disciplines, STUDIO tla is guided by a deep understanding of social, cultural, economic, political, and environmental factors relevant to each site. The firm is driven to create landscapes that are unique in their vision and representative of their context, technically excellent, and detailed with innovative methods and materiality.
